Contents of Volume 3

Number 1 January 1986

B. H. Kirsop
Editorial 1

C. Lönner, T. Welander, N. Molin, M. Dostálek and E. Blickstad
The microflora in a sour dough started spontaneously on typical Swedish rye meal 3

J. F. Dempster, L. McGuire and N. A. Halls
Effect of gamma radiation on the quality of bacon 13

L. Grazia, P. Romano, A. Bagni, D. Roggiani and G. Guglielmi
The role of moulds in the ripening process of salami 19

S. J. de Mora, R. Eschenbruch, S. J. Knowles and (the late) O. J. Spedding
The formation of dimethyl sulphide during fermentation using a wine yeast . . 27

F. M. Abbar and M. T. Mohammed
Identification of some enterotoxigenic strains of staphylococci from locally processed cheese 33

A. R. Bucky, P. R. Hayes and D. S. Robinson
Lipase production by a strain of *Pseudomonas fluorescens* in whole milk and skimmed milk 37

S. K. Soni, D. K. Sandhu, K. S. Vilkhu and N. Kamra
Microbiological studies on *Dosa* fermentation 45

W. J. Al-Rajab, K. A. Al-Chalabi and S. D. Sulayman
Incidence of salmonella in poultry and meat products in Iraq 55

P. M. Manvell and M. R. Ackland
Rapid detection of microbial growth in vegetable salads at chill and abuse temperatures 59

C. Breckenridge and S. N. Arseculeratne
Laboratory studies on parboiled and raw rough rice and their milling fractions as substrates for the production and accumulation of aflatoxin 67

R. F. McFeeters and K-H. Chen
Utilization of electron acceptors for anaerobic mannitol metabolism by *Lactobacillus plantarum*. Compounds which serve as electron acceptors . . 73

K-H. Chen and R. F. McFeeters
Utilization of electron acceptors for anaerobic metabolism by *Lactobacillus plantarum*. Enzymes and intermediates in the utilization of citrate 83

K-H. Chen and R. F. McFeeters
Utilization of electron acceptors for anaerobic mannitol metabolism by *Lactobacillus plantarum*. Reduction of alpha-keto acids 93

Announcement 101

Number 2 April 1986

A. Ramesh and V. K. Venugopalan
Densities and characteristics of histamine-forming luminous bacteria of marine fish 103

R. G. Cuero, J. E. Smith and J. Lacey
The influence of gamma irradiation and sodium hypochlorite sterilization on maize seed microflora and germination 107

C. C. Ho
Identity and characteristics of *Neurospora intermedia* responsible for *oncom* fermentation in Indonesia 115

S. Guijo, C. Millán and J. M. Ortega
Fermentative features of vinification and maturation yeasts isolated in the Montilla-Moriles region of Southern Spain 133

H.-J. S. Nielsen and P. Zeuthen
Influence of a partial replacement of sodium chloride with potassium chloride in a vacuum-packed Bologna-type sausage 143

H.-J. S. Nielsen and P. Zeuthen
Growth studies of spoilage and pathogenic bacteria in vacuum-packed Bologna-type sausage produced with NaCl or mixed NaCl and KCl 151

M. Lavery, H. Chamberlain and D. R. Berry
Use of a small scale insulated fermentation to simulate the scotch malt whisky fermentation 157

A. N. Sharpe, M. P. Diotte, P. I. Peterkin and I. Dudas
Towards the truly automated colony counter 161

R. G. Kroll and U. M. Rodrigues
The direct epifluorescent filter technique, cytochrome *c* oxidase test and plate count method for predicting the keeping quality of pasteurized cream . . 185

A. Savitri, T. N. Bhavanishankar and H. S. R. Desikachar
Effects of species on *in vitro* gas production by Clostridium perfringens . . 195

Announcement 201

Number 3 July 1986

B. Ratcliffe, C. B. Cole, R. Fuller, and M. J., Newport
The effect of yoghurt and milk fermented with a porcine intestinal strain of *Lactobacillus reuteri* on the performance and gastrointestinal flora of pigs weaned at two days of age 203

A. M. Gibson
Selective recovery of proteolytic strains of *Clostridium botulinum* types A and B from model cured meat systems 213

V. Vanos and L. Cox
Rapid routine method for the detection of lactic acid bacteria among competitive flora 223

M. Nuñez, F. J. Chavarri, B. E. García, and L. E. Gaytán
The effect of lactic starter inoculation and storage temperature on the behaviour of *Staphylococcus aureus* and *Enterobacter cloacae* in Burgos cheese 235

A. N. Sharpe, P. I. Peterkin and I. Dudas
Re-usable filtration apparatus needs no sterilizing 243

A. N. Sharpe, M. P. Diotte, P. I. Peterkin, and I. Dudas
Towards the truly automated colony counter (**Republished from Volume 3, Number 2, 161–184, 1986**) 247

Book Reviews 271

Number 4 October 1986

J. D. Atputharajah, S. Widanapathirana and U. Samarajeewa
Microbiology and biochemistry of natural fermentation of coconut palm sap . . 273

F. Peladan, D. Erbs and M. Moll
Practical aspects of the detection of lactic bacteria in beer 281

H. Sugita, R. Ueda, L. R. Berger and Y. Deguchi
A new selective medium for the isolation of anaerobic bacteria from marine animals 289

N. Horn, G. M. Wyatt, C. E. Bayliss, J. M. Gee and I. T. Johnson
The effect of dietary fibre on bacterial densities in the rat intestine 295

S. Kafel and M. Radkowski
Survival of salmonellae in skimmilk powder during storage at 20–35°C . . 303

L. Singh, R. K. Leela, M. S. Mohan and R. Sankaran
Microflora of the atmosphere and its control 307

J. P. Smith, B. Ooraikul, W. J. Koersen, E. D. Jackson and R. A. Lawrence
Novel approach to oxygen control in modified atmosphere packaging of bakery products 315

E. J. Martinez, N. Bonino and S. M. Alzamora
'Combined effect of water activity, pH and additives on growth of Staphylococcus aureus in model salami systems' 321

V. Moleyar and P. Narasimham
Antifungal activity of some essential oil components 331

T. N. Bhavanishankar and V. S. Murthy
Composition of the caecal microflora, faecal bile acids and serum proteins of rats fed turmeric (*Curcuma longa* L.) and its alcoholic extract 337

R. De Leon, H. A. Payne and C. P. Gerba
Development of a method for poliovirus detection in freshwater clams . . 345

K. A. Wheeler, A. D. Hocking, J. I. Pitt and A. M. Anggawati
Fungi associated with Indonesian dried fish 351

S. Babu, H. Chander, V. K. Batish and K. L. Bhatia
Factors affecting amine production in *Streptococcus cremoris* 359

J. I. Pitt, R. H. Cruickshank and L. Leistner
Penicillium commune, P. camembertii, the origin of white cheese moulds, and the production of cyclopiazonic acid 363

D. Singh, and H. H. Ng
Evaluation of a rapid detection method for *Escherichia coli* in foods using fluorogenic assay 373

H. Sugita, R. Ueda and Y. Deguchi
An anaerobic bacterium isolated from Japanese spiny lobster *Panulirus japonicus* 379
